ATTY. RAISSA H. JAJURIE
Minister
Ministry of Social Services and Development (MSSD) BARMM
Information & Communications Division
Cotabato City

Dear Minister Jajurie,

Good day.

I am writing to express my interest in applying for the **Web Developer position (Salary Grade 15)** at the Ministry of Social Services and Development – BARMM Regional Office. As a developer who focuses on building practical systems that improve organizational workflows, I am eager to contribute my skills to support the digital initiatives of the Ministry.

I have experience in developing web-based systems designed to improve efficiency, transparency, and document management processes within organizations. One of my recent projects is a **Document Tracking System**, which centralizes document routing, status monitoring, and reporting across offices to streamline internal workflows. I have also developed other systems such as an **Inventory Management System**, a **Point-of-Sale (POS) application**, and a **Lending/Installment Tracking System**. These projects reflect my focus on building structured, database-driven applications that solve real operational problems. My portfolio containing these projects can be viewed here: [**rajpaute.pages.dev**](https://rajpaute.pages.dev)

Through these projects, I have gained strong experience in **backend development, database design, system architecture, and workflow-based applications**, which I believe are valuable for developing and maintaining information systems within government offices.

I am motivated to contribute my technical skills to support efficient public service and digital transformation initiatives within MSSD BARMM.

Enclosed with this letter are my **Personal Data Sheet (PDS)** and other supporting documents for your review. I would greatly appreciate the opportunity to further discuss how my experience and technical background can contribute to your office.

Thank you very much for your time and consideration.

Respectfully yours,

Alrahje Paute
